

Memorandum

TO: Vern Yadon
FROM: Bruce Handy
DATE: Saturday, October 12, 1991, approx. 12:30 p.m.
SUBJECT: Serious deterioration of iron work, hand rails around lantern room at Pt. Piños Lighthouse.

Large pieces of rusted iron weighing approximately 4+ ounces struck me on the head and shoulders (See evidence) while standing at foot of front stairway entrance talking with visitors. Fortunately, none of the material struck guests, adults and some children.

It is imperative that we have immediate action by responsible authority so as to prevent injury to guests and further deterioration of the Pt. Piños Lighthouse.

Bruce Handy
Keeper of Pt. Piños Lighthouse
